TIPOGRAFIA & PACKAGING

Pasticceria
2022

Cercando di recepire le esigenze di un mercato in continua evoluzione, come quello del packaging, abbiamo cercato di migliorare i servizi che riteniamo indispensabili in un territorio come quello siciliano. Piccoli lotti di produzione e grande qualità sono le chiavi che possono permettere a piccoli e medi produttori locali di competere con grandi multinazionali, sottolineando la qualità di prodotti Bio e del territorio a filiera controllata.
